

## THE FOREIGN TROOPS MAY NOT LEAVE CHINA

Foreign Residents Protest Against Proposed Withdrawal--  
China Wants Her Money Back From Russia

London, Feb. 9.—The trend of events in China since the powers asserted to Emperor William's proposals to withdraw their troops from that country has induced them to reconsider the matter. With all Governments except Germany having forces in North China their withdrawal is now an open question and their decision will depend upon the developments of the next few months. Foreign residents in China strongly oppose the withdrawal of the troops. The proposal of the Chinese in negotiations with Russia, to include fixing a date for the withdrawal of the railway guards, evacuation of Harbin, relinquishment of certain lands and mines in Manchuria, which the Chinese claim that Russia appropriated and repayment with interest of the 5,000,000 taels which China contributed to the organization of the Russo-Chinese bank through the influence of the late Li Hung Chang and which she has made several attempts to recover.

**WANT FREE COAL.**  
Ottawa, Feb. 8.—W. C. Milner, of the Halifax Free Coal League, put in a strong plea before the tariff commission for reciprocity in coal. He asked the Government to get power from Parliament to abolish the duty as soon as the United States did so. The duty had ceased to be of any service for protective purposes, and was now used to raise prices. Dick, of the Dominion Coal Co., N.S., opposed this.

**THE CALGARY BONSPIEL.**  
Calgary, Feb. 8.—Thirty-seven rinks are competing in the second annual bonspiel of the Alberta Branch of the Royal Caledonian Curling Club. The only drawback is the fact that the ice is not

good. The four rinks now left in the Grand Challenge are: Smith, Palmer and Savage of Calgary, and Brown of Medicine Hat. In the Walkerville trophy Savage, of Calgary, is in fourth, Mather of Banff, and Stephens of Red Deer, in the eighth.

Campbell was beaten in the first round of the Grand Challenge by Palmer of Calgary, and McDonald met the same fate in a keen contest with Thom.

In the Walkerville competition the Edmonton rinks met McDonald of Winnipeg. In the Brewery match McDonald defeated Spafford of Calgary, ten to nine, but was beaten by Young in the next. Campbell is still in the Brewery, defeating Bayne of Bankhead and Lang of Calgary. A few of the matches have already been played in the Brewery and the Burns trophy has started. In the Burns contest the Edmonton rinks drew, but McDonald defaulted.

**REFINERS GET ALL THE PROFIT**  
Ottawa, Feb. 8.—The tariff commission sat until a late hour tonight and finished the enquiry which has been going on since September. The sugar importers made a strong protest against the monopoly enjoyed by the refiners. They had about eighty per cent of the profits. The Government got no revenue, the refiners took it all, and also the British preference which should have gone to the West Indies. The farming interests of Russell and Carleton counties were heard against an increase in the tariff.

**THE EVERLASTING TOPIC.**  
Forecast, fair generally today; decidedly cold in Manitoba and Saskatchewan, and moderately cold in Alberta on Saturday.

The weather has been moderately cold in Alberta, with very light snow; in Saskatchewan and Manitoba it has continued cold. Light snow also in western part of Saskatchewan.

Victoria	48	34
Edmonton	25	18
Calgary	23	12
Lethbridge	35	0
Medicine Hat	28	18
Winnipeg	2	-12

## LAST NIGHT'S HOCKEY GAME

Strathcona & Edmonton Played Fast  
Game Last Night—Score  
4 to 4.

The exhibition match played in the Thistle rink last night between the Edmonton Thistles and Strathcona resulted in a tie, score 4-4.

The game was rough-and-tumble from the sound of the bell and was no more scientific hockey than was the old time "shinny" played way back in 1780. But it was exciting, which was all the crowd seemed to care for, and when the score was evened up, away on in the second half, it became even still more interesting.

The result of the match was somewhat of a surprise for both teams. The game was the outcome of a visit of the Rossland bunch, and if the gang from the sunny side of the Saskatchewan was thought to come over and have the biggest walk-over they ever had, and put the Thistles in a back seat forevermore, just because they happened to lick to a finish a bunch of has-beens like the Rosslanders, they were not long in finding it out. On the other hand, if the Thistles, just because they didn't play as fast hockey as they might have done in the last game with Rossland, were so confident as to think they could handle the Strathcona combination men and pile up a score on their defense, they also were out in their calculations. In fact, both teams never worked harder, and if the Strathcona combination was like chain lightning, the Thistle defense was a veritable stone wall, and it was just about as hard to stop the one as it was impossible to work past the other.

Willie Banford was the strenuous man on the Thistle line-up last night. He handled the rubber pretty nearly as much as any other man on the ice, and he was a busy man around the Thistle nets. Willie never ceases to play for the puck at all times, and he cleared the goal many a time.

"John Dooley" Grady got about all the shots he could care for and, of course, handled all but four. He made some spectacular stops, and is as good as Sammie Humeaton at the other end of the ice any day. Sammie and he are a pair of door-keepers that would surprise even the Stanley cup men.

"Weary" Wright played the first game he has played this season with the Thistles. "Weary" threw himself around in the same old way, while he put up pretty fair hockey he is too unskillful of the comfort of some of his opponents. He served a term with the time-keepers, and did Powers, Deeton, the captain of the Thistles, was off, and "Weary" played in his place at center.

Fred Richards, the old-time of the Strathconas, was on again last night in place of McArthur. Kent made some star rushes. He and Ritchie made a great combination pair.

McKernan at cover point, put up a fine game during the first half, but in the second half exhibited a most ridiculous lacrosse style. His delight seemed to be to meet the puck as it came down and lift it right into the eyes of Banford and Grady. Time and time again he repeated the trick.

Arnold Johnston and Dobson were the star rushers. Arnold went wrong some way in the second half and had to quit, and Richards stayed up in the rooms with him for the rest of the game.

At 8:35 Referee Breen called the boys together. The game was rough from the draw, and the play was pretty much all around the Thistle nets. In six minutes from a mix-up the rubber was sent in by Strathcona.

The next score came to Edmonton and was secured by Arnold Johnston with one of his pretty dodging rushes. He took the rubber right up to Sammy dodging him, and putting the puck into the net with a neat back-hand shot. This was done in one minute.

McRae, at point, got hold of the rubber after about seven minutes' play and, lifting it on his stick, sent it right into Grady's eyes, and before "John Dooley" could turn around it was in the net. It was impossible to stop the lift.

Kent secured the next score in a pretty combination play with Ritchie. In seven more minutes, shooting a swift one from the side. Half-time, score 3-1.

The second half started with a long lift from McKernan. "Weary" here came in for his three minutes' rest.

## TWENTY-ONE MINERS KILLED

Premature Explosion in West Virginia Entombs Thirty-Nine Miners.

Charlestown, West. Feb. 9.—At least twenty-eight men are supposed to have met death in a terrible mine explosion in the Parallel mine of the Stewart Colliery Company near Oanhill. Thirty-nine men were employed in the mine and only twelve escaped. At midnight six bodies had been recovered near the mouth of the mine and it is certain the others in the mine are dead. Among those known to be in the mine and supposed to be dead are Mine Boss Mills Pratt, and his son, and four Negroes, Jas. Swan, Geo. Jones, William Madison and another. The explosion was caused by a packet of gas which was stuck in a vault in the mine. The explosion was terrific and many miners were killed outright. The fans were shut off leaving the men who had not been killed to smother to death and the unfortunate miners had little chance of escape.

**THE BACHELOR'S DANCE**  
The Bachelors gave a very pleasant dance in Robertson's hall last evening at which about eighty were present. Irving's Orchestra furnished the music, and the dancers' appreciation was shown by their repeated encores. A dainty luncheon was served about the middle of the evening. Among those present were noticed, Mr. and Mrs. D. W. MacDonald, Mr. and Mrs. Charlesworth, Mr. and Mrs. Nightingale, Mr. and Mrs. Frank Sommerfeld, Mr. and Mrs. McFarlane, Mr. and Mrs. Pace, Mrs. Hubbell, Dr. and Mrs. Hialop, Mr. and Mrs. Watt, Dr. and Mrs. Parhamson, Misses Greenwood, Maloney, Scott, Matheson, Webster, Cameron, Morrison, Curry, Ferris, Adams (Port Saskatchewan) McFarlane, McLean, Hooper, Kerr, Taylor, Lynch, McCauley, Fell, and Messrs. Harrison, Kelly, Hoar, Supple, Robertson, Landry, Cooper, Ferris, O'Connor, Cornwall, Wilson, trachan, Dobbell, Archibald, Tolshard, Babbitt, Douglas, Mor-Morris, Hilliwell, Bishoprie, Erskine, Madill, (Winnipeg), Johnston, Murray, (Vermilion) Biggar, Lane and many others.

## LAMOREUX GETS THREE YEARS.

In the supreme court this morning, His Lordship, Judge Scott, sentenced Wm. Lamoureux to three years' imprisonment for forgery. Lamoureux on Monday pleaded guilty to two charges that of forgery and of breaking from the custody of Constable Blythe, on the train on the way to Edmonton. The latter charge was dropped.

No other cases will come up until Monday, when Robert Lockhart, charged with stealing furs from Anderson, a fur trader in the north, will appear in court.

## LOCAL.

—M. W. Hopkins of St. Paul de Metis is at the Alberta.

—River Lot 30, formerly known as the lower settlement, has been subdivided and put upon the market as Rosedale by H. Bush. The land is close to the east end park purchased recently by the city.

—W. H. McCann of Helena, Montana, who spent a couple of days in the city this week looking up some investments in land, left for Winnipeg on last night's C.N.R. express and will return home by way of Winnipeg and St. Paul. Mr. McCann is well satisfied with what he saw in Alberta.

—Belleville Intelligencer: Mr. R. B. Chadwick, for some time general secretary of the local branch of the Y. M. C. A., has resigned his position, his resignation to take effect on April 1. Mr. Chadwick has accepted the secretaryship of the branch at Edmonton, Alberta, which is an excellent position. His many friends in this city will wish him success in the west, at the same time regretting that Belleville loses the services of so estimable and valuable a citizen.

—A stall shack at the corner of Seventh street and Jasper Avenue called the firemen out at 5:30 this morning. Only the horse wagon answered the call as there are not horses enough in the hall to handle the chemical. The blaze was gotten under control with the Babcocks, the small chemical cylinders which are attached to the horse wagon, and it was not necessary to put on any water. The cause of the fire was not ascertained. A couple of men were batching in the shack, but they were not at home at the time when the fire started.

## WHERE WILL MEMBERS MEET

Present Indications are Provincial Parliament Will Meet in McKay Avenue School.

While no announcement has yet been made it appears probable that the first session of the Alberta Provincial Parliament will be held in the assembly room of the McKay avenue school. The room comprises the entire third floor of the building, which is conveniently located and would be easily converted into a suitable temporary legislative chamber.

## RED DEER LOCALS

Red Deer, Feb. 7. (Special to the Bulletin)—Geo. Fleming of Penhold is in town on business.

The Red Deer curling club will be represented at the Calgary Bonspiel by a rink composed of R. C. Brumpton, T. Bradshaw, W. B. Findlay and A. Slade. The bunch should prove a winner.

Ernest Scott of Oiaa, is R. McCutcheon's guest.

B. F. Krause, the son of F. Krause, proprietor of the Alexandra hotel, left yesterday for Winnipeg, via Edmonton. Mr. Krause is well known here as a good amateur wrestler.

Paul Piguet left for Gleichen yesterday, from whence he will join Hawtensheimer & Co.'s river drivers.

A meeting of the Oddfellows was held last night.

The people of Red Deer do not deserve good hockey anyway. A few good sports come to all the matches and the others never come.

H. McDermott, the Innisfail jeweler is in town.

## STRINGING MORE WIRES

Plans for the improvement and extension of telegraph lines on the Pacific division of the C. P. R. submitted by Mr. James Wilson, the superintendent, have just been approved by the head office in Montreal. They will involve the expenditure of about \$20,000 within the next few months.

Early in March the construction of a standard telegraph line from Spencer's Bridge to Nicola, along the route of the railway now building into the Similkameen will be commenced. The work will, it is expected, be completed in thirty days.

An iron wire is to be strung between Vancouver and Ashcroft and likewise a copper wire between Ashcroft and Revelstoke. With the completion of the latter undertaking the company will have two copper wires extending across the continent.

The lines between Nelson and Castlegar, built in 1893, and the line between Proctor and Kootenay Landing, built in 1895, will also be standardized. This will include the erection of new poles.

The C. P. R. will also undertake the construction of a copper telephone circuit connecting all its hotels in the Rockies, comprising those at Banff, Laggan, Field, Emerald Lake, and Lake Louise Chalet. In this work a hundred and twenty-six miles of line will have to be built.

## HOTEL ARRIVALS

### ALBERTA—

P. Cross, Detroit.  
Jas. Alexander, Hamilton.  
D. S. Farlane, Belmont.

Robt. Snowball, Pilot Mound.

## TENDERS CALLED FOR GRAND TRUNK PACIFIC

Contracts will be let March 12th for Section from Winnipeg to Thunder Bay Junction and Section from Quebec West

Ottawa, Feb. 8.—The Writ for Victoria will be issued early tomorrow. The election will be about the end of the month, so that Mr. Templeman will have time to take his seat when the House meets. The Canada Gazette is issued today with tenders for the Winnipeg section, Quebec section, and a steel bridge for the transcontinental. Tenders will have to be in by March 12, and the contracts completed by September. A deposit of \$400,000 is wanted on the Winnipeg section, \$225,000 on the Quebec section, and \$35,000 on the steel bridge.

The tenders are for the construction of the section from Winnipeg to the junction of the Thunder Bay branch and also a section one hundred and fifty miles in length westward from the Quebec bridge. The bridge for which tenders are invited, is a steel viaduct across the Caprengue Valley, 3060 feet in length.

It was moved and carried that the city council be asked what was done with the Board's communication regarding the nuisance near the Norwood school.

A communication from the Provincial Government asked for the use of the assembly room of McKay Avenue school for the meeting of parliament. The school management was instructed to interview the members of the government with power to act in the matter.

It was decided to have the financial statement, when audited, published in the local papers, under the finance committee's inspection, and the various committees will be asked to prepare reports on the work of the committees during the year, to be published in pamphlet form in January, 1907.

Following are the accounts passed:

The Edmonton Public Schools Board held their regular meeting in McKay Avenue school last evening, when all the members of the board were present. Principal Russell, of Queen's Avenue school, was also present.

No business of great importance was transacted. The building committee reported progress in the matter of looking up sites, but did not report on any particular site which they had in view.

J. Duggan, caretaker of McKay Avenue school, was granted an increase of \$5 per month on his salary.

A. E. Hopkins, of the Edmonton School of Fencing, wrote asking that he might have the assembly room of Queen's Avenue school for fencing purposes. The secretary was instructed to write Mr. Hopkins saying that they could not consider the proposition.

Douglas and Cowles moved that the above accounts be referred to the different committees, and if correct paid.—Carried.

The petition came up again for discussion, several gentlemen making spicy suggestions thereon. The matter laid over till next meeting.

Applications for engineer, weigh master and town hall caretaker were read, the aspirants for this office being Messrs. Armstrong, Rees, Groat and Young. Mr. Young was given the situation at a salary of \$55 per month duties to be clearly defined to him.

Bylaw 138 re the appointment of H. G. Clarke, town auditor for 1906; salary \$100 per annum, monthly audit required, was read a third time and passed on motion of Aldermen Douglas and MacKenzie.

Bylaw 139 re appointment of H. Patterson as chief of police, salary \$65 per month, received its third reading and passed on motion of Messrs. MacKenzie and Douglas.

Bylaw 140 re appointment of T. G. Ryan, night policeman at a salary of \$50 per month, received its third reading and passed on motion of Douglas and Elliott.

Bylaw 141 to raise \$35,000 for town electric light purposes passed without reading on motion of Aldermen Douglas and MacKenzie.

Bylaw 142 passed its second reading on motion of Aldermen Richards and Cowles.

Engineer McLean was authorized to write to several firms that manufacture engines and get full particulars re engines and turbines as to utility, power, cost, weight, etc., and report the result to council.

Alderman Douglas stated that he had an option on the Galt property near the Calgary trail at \$150 an acre if the town would reserve same for a park.

The secretary-treasurer was authorized to prepare a bylaw for the purchase of land for a park.

The tender of Dietz and Main was read re coal shed at power house offering to build a shed 14x36 for \$195. MacFarlane and Douglas moved that the tender of Dietz & Main for \$195 be accepted.—Carried.

Discussion arose re the appointment of town assessor for 1906. MacKenzie and Cowles moved that the secretary-treasurer advertise in the local papers for a town assessor for 1906, salary \$300, applications to be received up to the next regular meeting of the council, February 20.—Carried.

Douglas and Cowles moved that Secretary-treasurer be authorized to communicate with the C. & E. townsite owners and find price of Block 25 and also of land below the Hill block and report same at the next meeting.—Carried.

The high level bridge and the town's policy re same was discussed in detail. Auctioneers' licenses received attention also.

Miss F. Cottingham as Mrs. Selwyn acted her part well, being especially good in the more tragic lines of the play. Grace (Miss E. Good) and Tilly (Miss E. Postill) also made names for themselves as exponents of the dramatic art, while Miss Jenny McLeod as Lottie Blithers had great stage presence and spoke her lines with a distinctness not often found in an amateur performance.

The gentlemen of the company are also worthy of commendation. Mr. Gover as Sam Selwyn, was very good indeed, while Dibbs, the boy in buttons (Mr. Hewitt) brought down the house

on several occasions. Geo. Best as Fred Bellamy, the unwilling slave, did his part with great feeling. Ruben Gee as Bosco Blithers and Mr. Strong as Capt. Caskill were also very good and the performance was one that no professional troupe would be ashamed of.

Miss Cottingham deserves great credit for her trouble in organizing this troupe on behalf of the Memorial hospital.

R. Morton Bell of Pine Lake, is in the city.

W. B. Bowman came up from Stettler on Wednesday.

The directors of the Red Deer Memorial Hospital have decided to close it for a short time until some more nurses can be secured. The resignations of the matron, Miss Davis and Nurse Davis took place Saturday.

A steam laundry will soon be in operation in Red Deer.

A gymkhana consisting of masquerade and comic races will be given by the band tomorrow evening at the rink.

**LOYAL ORANGE LODGE 1794**

### A NEW LAND COMPANY

The Winnipeg Free Press publishes the following information about the new Belgian company who have purchased a big tract of land in the Vermillion valley:

A very important transaction in the way of western land purchases has just been completed whereby a Belgian company has secured 50,000 acres of the finest land in the Vermillion country, half way between Battleford and Edmonton on the C. N. R., which will be disposed of to actual settlers and the vast tract of country brought under rapid cultivation.

Of the area 20,000 acres have been bought from the Canadian Pacific railway and 30,000 acres from Hugh Sutherland and W. A. Campbell. The lands are to be placed on the market immediately and active campaign work instituted to bring in settlers till the whole area has been taken up.

The Belgian company is composed of a number of the shrewdest and most conservative capitalists of Europe, and the fact that they have decided upon investment in the Vermillion valley is likely to prove an event of far-reaching importance to western Canada. In 1904 Joseph Brunner, of Brussels; Edward Jacobs, of Antwerp; P. G. West, of Paris, and R. A. Demme, of London and Paris, made a tour of western Canada. They were reticent at the time concerning the object of their visit, but it was understood that they were inspecting the western country with a view to making investments. As they constituted a party representing some of the biggest financiers in Europe, interest was keen concerning their movements, but nothing was heard of their conclusions regarding Canada till a few days ago, when Andree Gouzee, secretary of the company, came to this city from Brussels. It is now officially announced that the trip made by the Belgian bankers has borne fruit and that a big investment has been made in the west.

It is not the intention of the company, however, to make a speculative venture out of the purchase of Canadian land, as the financiers have made the most critical investigation and their decision was arrived at after two years of consideration and enquiry regarding the sources from which they could derive the most benefit in the way of a permanent investment. If the results to be obtained from the present outlay justify the confidence which the members of the company have exhibited towards Canada large interests will be established and enormous capital directed towards this country. When the purchasing and selling of lands reaches the condition where the prices are too high for profit in that direction a development and loan institution will most likely be established. Members of the company have had wide experience all over the world, having handled investments in Egypt and South America, and the banking house of Joseph Brunner handled millions of dollars' worth of bonds of the Canadian Pacific in Brussels when the stock of that company was selling at 45, thereby securing for the clients of the bank one of the most successful investments ever negotiated in Europe. That incident has probably had considerable influence in directing the attentions of the company to Canada. The actual president of the company is Jean Berckmans, of Brussels, who is one of the best known capitalists in that city and a man of great enterprise.

It has been principally through the work of Mr. Gouzee, who is a guest at the Empire, that the deal has been finally realized, and he will continue to act as secretary, residing in Brussels, while W. A. Campbell, of this city, will look after the disposing and settling of the land here. Mr. Campbell had a great deal to do with bringing the Belgian bankers to Canada in the first place and impressed upon them the value of an investment in western lands.

It is pointed out that the introduction of such men as are connected with the organization which promises to develop Northwest lands will, if the plans result successfully, open up avenues of great promise to the country in that they are in touch with the money markets of Europe and will place Canadian investments on the markets there, thus bringing this country to the

notice of other moneyed interests in the Old World.

Mr. Gouzee, speaking to a reporter, said: "The present venture on the part of our people is only a start. Of course they are shrewd business men and they are looking for results before they feel justified in going further. If this investment is successful and demonstrates that the western country is worthy of the investment of capital there is practically no limit to the operations which may be undertaken. Our president is a man of great resource and enterprise and he will accept any legitimate undertaking that offers advantage in the way of industrial or commercial enterprise. We are not beginning by erecting a skyscraper on Main street but if this country can produce results with a fair trial which we shall give it, then there is great reason that the country will be glad that our people have taken an interest in it."

"I am not new to the west by any means as I have spent some years in the country but I have never stayed any length of time in Winnipeg before. I may say that I am astonished at the growth and amount of business which is being done here and I believe it will be one of the largest cities in Canada. Our lands have not been purchased at a low figure but are considered cheap considering the quality. The Vermillion country is considered the best agricultural land in the west."

"We are making arrangements with W. A. Campbell to look after Canadian end of the undertaking and the success of the venture will depend greatly on the work that is done here. It is our wish that the land should be settled as quickly as possible as we are anxious to test the Canadian prosperity concerning which we have heard so much."

W. A. Campbell, when asked concerning the purchase, confirmed the announcement and said that negotiations were under way to have him appointed to look after the handling of the company's business in the west. He also stated that as he had been instrumental in first inducing the Belgian bankers to come to western Canada he was pleased that capital had been directed towards the country. "They," continued Mr. Campbell, "are capitalists who are looking for opportunities. Canada is 'long on capital' and the meeting of the two interests ought to be immensely beneficial to both."

Mr. Campbell, when asked regarding the purchase price of the block purchased from himself and Mr. Sutherland, stated that it was a private one. It is understood, however, that it was in the neighborhood of \$7 an acre. Mr. Campbell and Mr. Sutherland have held it for nearly three years, the purchase price at that time being \$4. They have made a handsome profit on their investment.

## CURRENT COMMENT

The Star has had a fit. Probably been wondering what his first parliament will do in April.

The Ontario Provincial Board of Health wants a Minister of Public Health added to the Cabinet. Why was "Doc" Nesbitt side-tracked.

Toronto World: "It is a pity that Parliament is not sitting, for then it might be possible to dispel the cloud of mystery which seems to be gathering round Niagara Falls." from which it is gathered that the industrial development has changed the "perpetual mist" to an "eternal mystery."

The Calgary Albertin does not take kindly to the curfew law and says: "Calgary introduced an archaic, out-of-date and senseless custom last night and the curfew tolled out again. The curfew rang a few years ago, and rang as loudly as curfews usually ring, but with so little effect that the council authorized its discontinuance. And curfew has gone very smoothly without its plaintive tones."

Doc. Nesbitt is now registrar of west Toronto at a salary of \$6,000 per year. The Conservative press quotes him as saying: "I would have retired last fall but attacks from the press decided me. 'I just stayed until I had cleaned up on them all. The boys stood by me and we did the job.' Incidentally the Dr. is not taking chances on what said press might do to him four years hence."

Heretofore the Canadian Pacific telegraph office in this city has closed at 8 p.m. Hereafter the office will be open until midnight. The change has not been made for the accommodation of the public, but for the welfare of the C.P.R. Slowly but none the less surely the methods and rules of that company are changing from the methods and rules of a monopoly to the methods and rules of a commercial enterprise, whose success is dependent on the satisfaction of its patrons and every additional change is an evidence of the power of competition.

The Canadian Press Association at the convention in Toronto last week went after the Medical Council with the following resolution which was unanimously passed: "Your committee view with strong disapproval the conduct of the Medical Council in using their organization to suppress on the part of one of the fraternity, the use of the advertising columns of the paper in placing his qualifications and the offer of his services before the public that while the Medical Council may be safely left to discipline the profession for breeches of medical etiquette, the use of the newspapers in a legitimate way is a right that should not be under the control of any association."

Commenting on "Mild Winters and Health" the Toronto News says: "The opinion that a mild winter is a breeding of disease is not borne out by the report of the medical health officer for January. There were 96 cases of diphtheria, compared with 187 for January 1905; 25 cases of scarlet fever, compared with 48; and 12 cases of typhoid fever, compared with 14 in January, 1905. In all these diseases there was an increase as compared with December, 1905, but not in the ratio of previous years."

"It is natural to associate healthfulness with cold, clear, bracing weather. But it must be remembered that the cold air of winter is breathed freely only by the young and active, and that the lungs of others are supplied mainly by air heated by furnace and stove, which can hardly be more wholesome than that of a mild winter day. Sunshine whether the air be warm or cold must always be healthful."

"There is another point on which the medical men might enlighten us. The vegetation of summer is generally supposed to serve the purpose of absorbing elements that are not conducive to health in man. In winter we have an other preservation of health in the snow that prevents the germ-laden dust from flying in the cold air. When a mild winter comes with none of these safeguards, with leafless trees, warm air, and mud or dust, it looks as if there is some foundation for the prejudice against unreasonable weather."

## INDIAN PROBLEM AGAIN

To the Editor Bulletin:

Dear Sir—

In your issue of the 5th inst., there appeared a very optimistic view of the Indian situation drawn from the annual report of Commissioner Laird.

Much stress is laid on the reducing of rations realized on the ranching reserves of southern Alberta, and the saving thereby of so many thousands of pounds of beef. The main object in view yet, it is asserted, is not so much the saving realized, as the development

of a spirit of self-reliance in the Indian, which will eventually make him a self-supporting citizen of the country.

The purpose then is to sooner make the Indian self-supporting, and this purpose is assuredly praiseworthy and wise; the means resorted to, we may acknowledge, is fairly adapted to the end. Give less assistance, and the Indian will be obliged to exert himself the more. But is this means administered in a sound and judicious manner?

The practice used to be to issue rations twice a week. Now, besides the reducing of rations, as acknowledged above, the new system adopted is to issue general rations only once a week.

Exceptions are made, however, for old people and invalids, who draw free rations, as usual, twice a week, and for those who are able to pay for their rations, the cost of said rations being deducted from the price of beef supplied to the Department from their own herd.

It follows that those who are valid, but are not, as yet in a position to support themselves, are receiving shortened rations only once a week.

What will happen when these shortened rations are brought to the hungry ones at home? It must of necessity follow that these rations, intended for seven days, will last only two or three days, and the family will starve until the next issue of rations.

Now it is easy to realize what will be the effect of this intermittent starving, continued through so many months. Few constitutions will be able to stand it for years.

No, especially when rations are reduced then should be the time to increase the number of issues, and to distribute this meagre allowance thrice a week rather than twice. The rate of mortality is large enough on the reserves. For humanity's sake do not submit these unfortunate people to intermittent starvation. The beautiful country with the land that you have taken from them, where bounteous harvests are the rule, where millions of cattle are raised, plentifully affords you the means of treating these people with kindness and generosity. They will soon be a thing of the past, do not hasten this melancholy fate, tend them to the last with a tender hand.

By all means make them self-supporting, it is best, especially for them, best in all respects; but go to it with judgment and humanity. The only sensible way of obtaining this result is to provide remunerative work of some kind for the valid and able-bodied men. Then they will be in a position to earn their livelihood, but there is no work for them and here is the great mistake from the beginning.

Inducing the Indians to cattle raising has been the only step in the right direction. They have taken to it wonderfully. Some of them are well off already and able to take care of themselves unassisted. But for the others, who are not so well advanced, do not be so hasty, there is no reason for reducing them to starvation. Supply them with work, this is not done except for a few months of the year, at the hay season, for instance. The greatest part of the year there is no work on the reserve for them by which they could earn their livelihood, and the policy of the Department is to keep them from roaming about the country looking for odd jobs. What will they do? They cannot, by any amount of thinking, feed themselves and their families.

Note that for these Indians of Southern Alberta there is not the resource of going on hunting and fishing expeditions as the Indians of the north can do; hunting and fishing are practically out of the question in that part of the country.

What then? Any sensible man will be obliged to say that such a system of issuing reduced rations for seven days, is fully unwarrantable.

Thanking you, Mr. Editor for your valuable space,

OVERSEER.

## TENDERS WANTED

For the building of an addition to the East Edmonton school, from building 22x30 concrete foundation, cellar, furnace, etc. For plans and further information apply to Dr. J. W. Johnston, Secretary-Treasurer, residence East Edmonton, Box 548, Edmonton, sw 25-27 pd.

## New Spring Goods Coming to Hand

It may be a little early for advertising spring goods, but nevertheless we want to tell you about some of our new lines that have just come in, and what very special values we are going to give you. For instance—

A SNAP IN BLEACHED SHEETINGS just received a line of bleached sheetings bought before the raise in cotton. You can have them either plain or twilled and only per yard ..... 25c

UNBLEACHED SHEETINGS

In extra heavy twill; these are good value at 20c and 25c per yard.

EXTRA FINE BLEACHED SHEETINGS

Extra fine twilled sheetings, new goods bought right and to be sold at a right price, 8-4 width 35c, 40c and 45c per yard; 8-4 width 45c per yard.

LINEN SHEETING

Extra fine, all pure linen sheeting, imported goods, per yard—\$1.50

PILLOW COTTONS

Circular pillowcottons, all widths, 40 to 45 inches, extra heavy, 20c for 40 in., 25c per yd. for 42 to 46 in.

READY MADE PILLOW CASES

All ready to use, no trouble making them, 20c and 25c each.

FLANNELETTE BLANKETS

1-4 size gray only, \$1.10 per pair.

TABLE LINENS

Extra fine imported table linens, bleached or unbleached, all widths and all prices from 30c to \$1.50 per yard.

TABLE NAPKINS

Some extra good value in table napkins \$1 to \$3 per dozen.

A SPECIAL

In towel values is our heavy pure linen towel at 80c per pair. Ask to see them.

This is a good time of the year to get your spring sewing done, and you may be interested to know that we have just opened up fifty pieces of fancy gingham and chambrays. These goods are all new patterns and good value at 12 1-2c and 15c per yard.

FANCY DUCKS

We can show you fancy ducks in a big range of patterns in black, navy, cardinal and white, per yard ..... 15c

NEW PRINTS

In a big range of colors and patterns, all new goods, 10c to 20c per yard.

NEW FLANNELETTES

In light and dark striped patterns, good weights and good value, 10c to 15c per yard.

ENGLISH FLANNEL SHIRTINGS

We have just received a nice range of these popular goods in new and pretty patterns, 25c to 45c per yd.

LACE CURTAINS

We would draw your special attention to the splendid new stock of lace curtains, door panels, curtain nets, tapestry and chenille curtains and curtain material by the yard, which have just arrived.

## VICTORIAN PLEASED WITH

EDMONTON.  
(Victoria Times)F. M. Rattenbury, the well-known  
Victoria architect, has returned from  
a brief visit to Edmonton and other  
points in the northwest. He gives a  
glowing account of the outlook  
throughout the northwest, particu-  
larly in "Sunny Alberta," as he terms it.  
He predicts that within a short time  
no less than three transconti-  
nental railways will be operating  
through that country. When this  
fact is considered, in conjunction  
with the natural advantages of the  
section from a commercial stand-  
point, he thinks there can be no  
doubt of the future importance of  
the newly formed province.Of Edmonton, Mr. Rattenbury can-  
not say too much. In conversation  
with a Times reporter he took some  
 pains to explain the position of that  
city at the present time. Although  
now possessing a comparatively small  
population, it was rapidly becoming  
settled. In the first place the town  
was built upon a coal field, ensuring  
an immense industry after it had been  
thoroughly developed. Secondly, the  
surrounding country for 300 miles in  
every direction was beautifully fertile,  
the prairie might be termed "a ster-  
ile waste," compared to it. Building  
was progressing continuously, and ev-  
eryone was imbued with a spirit of  
enthusiasm that was most prom-  
ising. He believed, also, that there was  
a very great probability of the town  
ultimately being made the capital.But more significant than every-  
thing else in his opinion, was the ef-  
fect of three of the most influential  
railway companies to obtain direct  
communication with that point at the  
earliest possible moment. Already the  
Canadian Northern had reached there  
on its way to the coast. The Grand  
Trunk Pacific was coming in that di-  
rection as fast as the rails could be  
laid. Up to the present the Canadian  
Pacific company did not intend be-  
ing behind the others, however, as  
was evidenced by the announcement  
that they contemplated constructing  
another main line from Winnipeg to  
Edmonton. There was no doubt in  
his mind the time there it would be  
carried through to the coast. This  
was only reasonable as the Cana-  
dian Pacific could not hope to com-  
pete with the rival corporations over  
its present very expensive route  
through the Rockies.With all these improvements go-  
ing forward, settlers arriving in  
large numbers not to mention the  
peculiar advantages possessed by  
the town, both from a commercial and  
recreational point of view, Mr. Rat-  
tenbury predicts for it a splendid fu-  
ture."Do you know that you can get  
coal in Edmonton at the present time  
for a dollar and a half a ton?" hesaid to the reporter. "Think of that  
and what we are paying for it on  
the coast here, and remembering that  
the fields are scarcely opened up, you  
may perhaps obtain some idea of its  
possibilities." While there Mr. Rat-  
tenbury experienced but little cold  
weather, and for a week enjoyed the  
finest kind of mooring, the country  
roads being in excellent condition.Another matter mentioned by Mr.  
Rattenbury was the extensive inter-  
ests of the Brackman & Co. Milling  
Company and other Victoria Capital-  
ists throughout the northwest, and  
especially in the vicinity of Edmon-  
ton. With respect to the company  
first mentioned, he stated that he  
had been astonished to find the ex-  
tent of their holdings there. They have  
wheat elevators scattered all over the  
country, and were continually con-  
structing new ones. As the rail-  
ways branched out the Brackman  
& Co. Company followed them and put  
up their structures for the storage  
of grain. Only just before he left  
they were calling for tenders for one  
to be located at Calgary. These cost  
approximately \$18,000 each, so that  
some idea of the enterprise of the  
firm, whose headquarters are in Vic-  
toria, may be gathered.That pain in the

## FARMERS' PAGE

### AN IMPORTANT MATTER

To the Editor Bulletin:

Dear Sir—  
Will you grant me a little space in your valuable paper to give and we hope to get some information regarding the very important matter of roads. It is a well-known fact that a country without roads can never be prosperous; it is quite clear also that the merchants in any town cannot expect to do business unless there are roads radiating into the country over which people can easily and quickly travel into town.

Edmonton some day expects to become a city (I beg your pardon, she is a city) I mean some day Edmonton expects to be a large city. This being the case, now is the time for the Edmonton city fathers to become interested in roads leading into the city.

For the next few years it seems we are likely to have much drier seasons than we have had for the last three or four, therefore, now is the time to get busy, laying out, making and repairing roads, for ten times the work can now be done that was possible three years ago.

There were terrible complaints from the farmers about impassable roads, but the worst complaints we heard were from the business men of the city.

To come to particulars the road we wish to speak about is the one running straight north from the town parallel with, and one mile west of Namsa Avenue. It would strike into town about Thirteenth or Fourteenth street and we will call it "Bushy Avenue" for the time being.

When Edmonton is a large city, do you think, Mr. Editor, that her main business street will be on the extreme southern limit, right on the edge of the river, portions of one side of it, even now in imminent danger of sliding down into the river? No sir, Edmonton's main business thoroughfare will start from Jasper Avenue, and will run north through the thickest part of our population. An up-to-date business man will not waste time and money trying to make people come to his store, situated on some back street, but he will take his store to where the people are, and make it as easy as possible for them to get there.

It may be said sir, we are looking a long way into the future. Possibly we are, but we do not think that the things we speak of will be very long before they come to pass; and if the city council of Edmonton wants to keep up-to-date, the best way to do, is to be looking and planning ahead.

If half the prophecies we hear come true, ten years from now Edmonton will have 100,000 inhabitants, and by that time the said Bushy Avenue will be the principal road from the north into the city and it will strike right into the centre of the city.

At the present time it is not even opened up into the city, but stops short two miles from Main street and settlers traveling down it are compelled to go one mile east, and then, if they are going to the station they must come another mile west.

Our object, Mr. Editor, is to draw the attention of the city council and citizens generally to the important matter of having some good trunk roads opening into the city. The Fort trail and Namsa Avenue are in the east, Stony Plain on the extreme west, where is the road in the centre if it is not Bushy Avenue?

We should like to hear from others about the matter and see if something cannot be done and done quickly.

Yours very truly,  
WILL J. KEEN.

There are 50 real estate offices doing business in the city of Edmonton today. Interested in which there are probably two hundred business men and nearly as many more employees. In the first five days of February there were five new real estate offices opened up. In January there were 12, in December 6, in November 4 and in October 2. As indicating the amount of business being done in farm lands and city property in Edmonton, it is significant that while new additions are being made every month to the number of land and real estate offices, all of them appear to be doing good business and not one of them yet has been compelled to pull down the sign or shut up shop.

TEMPLEMAN RUNS IN VICTORIA  
Ottawa, Feb. 7th.—Geo. Risley, M.P. has sent his resignation to the speaker and Senator Templeman will resign his seat in the senate and run for Victoria, B. C. Risley says that he has resigned to make an opening for Templeman entering the commonsense. He has no promise of the vacant senatorship. The writ for Victoria will likely be issued tomorrow.

GERMANY UNEASY  
Berlin, Feb. 8.—While Government circles maintain an outwardly hopeful attitude regarding the conference at Algiers, the newspapers are that much concern is felt about the outcome. A failure to reach any agreement is regarded as probable.

NO MORE REBATES  
Toronto, Feb. 8.—Attorney General Foy will at the coming session of the legislature introduce a measure

making it an offense to grant rebates in life insurance. British and Canadian offices are anxious for such a measure.

—The Edmonton Brewing & Malt Company have just shipped to B.C. the first car of malt ever shipped from this district. The Edmonton beer, ale and stout which captured the diploma at the Dominion fair were made from home made malt and the opening of this trade to the B.C. markets should increase the demand for six rowed Alberta barley.

**RED DEER****HOCKEY TIE**

Match With Wetaskiwin Ended Even  
After Some Strenuous Play.

Red. Deer, Feb. 7.—It seems as though the fates were against the Red Deer senior hockey team winning a game this year. In almost every game the chances have been in their favor until the last moment and then victory has been changed to defeat. This time, however, there was no defeat and we want to say right here, that for a sporty town Wetaskiwin shows poor judgment in sending out a team that has not the heart, or perhaps has not the instincts of sportsmanship to finish a draw game by playing extra time.

For a tie it was, and a good fast game all through. For Red Deer Clemes and Scott did the starring and Jimmy Iann, who was borrowed from the intermediates for the game, covered himself with glory at cover point. The game, while not as rough as some others that have been played here this winter certainly did not lack its strenuous points, especially when Wetaskiwin cover point thought he could ram some of the precepts of self-defence into McCutcheon, when they both went into the corner after the puck. There was a general melee for about five minutes, both teams and some spectators rushing to the rescue; then the clouds melted and McCutcheon and Barber went to decorate the fence for a while.

The first goal was scored by Wetaskiwin in six minutes. The next was scored by Scott from Red Deer in four minutes and another by Clemes in three minutes. Shortly afterwards Wetaskiwin evened up; then there was some heavy up and down play and Clemes and Scott broke away and Scott scored again. Wetaskiwin got a goal by a lift from cover point, which in a rink so poorly lit is impossible to see, but Eddy Scott got away again and scored in two minutes. Nothing more is worthy of mention till half time, except a couple of star rushes by Clemes. On one occasion he passed every man on the Wetaskiwin defence but Montgomery in the flags was all to the good. During the evening he stopped many shots that it seemed must score.

At the close of the first half the score stood 4 to 3.

The next half started with a rush. For about ten minutes there was no score. Then Wetaskiwin did some clever combination and poked it through.

McCutcheon and Barber then had their fun and shortly after their return to the ice Wetaskiwin scored again. Score, Wetaskiwin 5, Red Deer 4. Clemes took the puck and letted in half a minute. This tied the score and time being up a few minutes later Wetaskiwin showed their sporting blood by refusing absolutely to play it off. Payne, as referee, though very conscientious, was hardly a success.

## LOCAL

—Fancy dress carnival at the rink tonight.

—Alberta College Literary Society meets tonight.

—Workmen are taking down the scaffolding which surrounds the bell tower at the city hall.

—Fred Fitzgerald returned last night from a trip down the C.N.R. line as far as Battleford, where he was looking over the land and real estate outlook.

—W. H. McBeth returned from Vegreville last night on the C.N.R. It is reported that Mr. McBeth is buying a hotel down the C.N.R. line.

—W. P. H. Thompson of this city, has gone to Calgary to meet the Supreme Councillor and to discuss the business of the I. O. F.

—W. S. Weeks & Co., real estate agents have moved into their new offices on the corner of Jasper avenue and Second street, next to Reed's Bazaar.

—The bachelors of Calgary have issued invitations to a dance to be held on St. Valentine's Day, 14th inst. A number of Edmonton people have received invitations.

—Rev. Chas. Weaver, Anglican missionary at Wabiscow, left yesterday for the north accompanied by Miss Gardiner, who will teach in the missionary school there.

—The secretary of the Thistle Hockey club has received a communication from the Medicine Hat team, which states that they are willing to come to Edmonton for a game about the end of the month. The Medicine Hat team are a fast seven.

—The Sun Real Estate Co., which held its real estate auction in the Windsor hotel last night will change this evening to the Queen's. It will commence at 8 o'clock. Some good property in all parts of the city will be offered.

## PERSONAL

Hon. C. W. Cross and Mrs. Cross returned from Calgary last evening.

A. Lynn and wife and Miss Lynn, of Calgary, went south this morning.

Miss McConnell, book-keeper in the Hudson's Bay stores, left today for a visit to her home in Portage la Prairie.

Mr. Madill, representative of the R. J. Whittia, Company, Winnipeg, has been in the city for the last couple of days.

J. E. Laurencelle, formerly of the Windsor, left yesterday for Vancouver to spend a six weeks holiday on the coast.

City Commissioner G. J. Kinnaird, returned to the city last night after having spent a few days with his parents in Neepawa on the return from the Winnipeg excursion.

Mr. R. A. Robertson leaves tomorrow for Winnipeg, where he will meet his mother and sister who have been in Eastern cities and return with them in the course of a week or so.

## COLLEGE DISCIPLINE

Principal Riddell, of Alberta College, wishes to intimate to the friends of the college as well as to friends of the students, that young men and women do not come to the college to attend social functions in the city. Students come there primarily to study. No request for resident students to go out in the evenings will be entertained where the request does not come to the principal before coming to the students. Persons wishing to see students attending the college would confer a favor on the faculty by not calling between 9-12 and 1-3-4 except in case of pressing urgency. Considerable interruption has come to the work of the college by telephone messages at all hours. This would be greatly lessened if persons wishing to speak to members of this faculty or students would call up 344 at the hour or at the half hour between 9-12 and 1-3-4.

## LAST NIGHT'S HOCKEY GAME

Continued from Page One.

Dobson got the rubber in with a great play in six minutes.

Kent scored the next one in seven minutes. Johnston broke his skate and there was a long delay. "Weary" got away from the face-off and hit about three-quarters of no time at all had the puck behind Sammy.

The play was in Edmonton's hands and the boys worked hard to even up the score. Powers did it with a splendid rush.

Now the crowd were just about as excited as they could be, with only a few moments to play and the score a tie. Try as they might, however, the Thistles could do no more than hold the Strathconas down, although there were some close calls for Sammy. At the close of the game there was some discussion about playing the draw out. The Edmonton men did not leave the ice, and McKee, captain of the Strathconas, called his men out, but Kent and Ritchie refused to play and the boys finally let the game go.

## FRANKLIN TRIAL

There were some interesting developments in the Franklin case yesterday afternoon in Supreme court. Crown prosecutor McDonald concluded his case before three o'clock and O. M. Biggar, who is conducting the defense called several witnesses.

His chief witness was Mrs. Franklin, wife of the accused who gave evidence regarding the jewelry. She testified to purchasing the earrings sold to Taylor, in Portland, Oregon, last spring from a Jeweller. Her answers to the questions asked were clear and concise, and she even exhibited the marriage license by which she and Franklin were married last May. She gave a history of her movements since leaving California and coming to Edmonton.

When court opened, Henry Napier Lane, teller of the Bank of Commerce, Edmonton, was called and stated that no transactions with the name of the accused had appeared on the books at the bank within the last seven months. It was not the custom of the bank to take jewelry on loans.

S. A. Mahoney, who was a boarder at Franklin's house last December was called. Franklin exhibited a ring to him in Mahoney's room. Accused said the ring had been tested and it was worth about \$100 a carat, and if it had been better finished would have been worth \$150. Witness asked him how many carats the ring weighed and accused told him something over six.

Mrs. Franklin was standing in the door during the conversation and showed two earrings which she said had been tested and were worth \$350 each but that she had paid \$500 for the pair of them.

Geo. P. Watcher, jeweller, was the next witness. Examining the jewelry exhibited, he stated that one was a genuine diamond, two were imitations. There was a lot of that kind sold.

This evidence closed the case for the prosecution.

Mr. Biggar in addressing his Lordship, said that there was no evidence to show positively that the accused obtained security from Mr. Taylor under false pretences. It was on the opinion first expressed by Mr. Nankin that Taylor gave his note to Franklin. Mr. Biggar quoted from the ruling of a chief justice in a similar case, that it depended upon the motive which induced the complainant to part from his money. Taylor while in the box in the morning, had stated that he would not have given his note if Nankin had said at the time that the jewelry was worthless.

Norman H. McDonald, accountant in the Merchants Bank, Edmonton, was the first witness called for the defence. He recognized a promissory note produced, which had been discounted for a customer, J. Crough. While the note was current, a diamond ring was held by the bank for safekeeping. The note was renewed and the ring was taken away and a smaller one substituted. Cross-examined by the Crown witness said Mr. Crough was an esteemed customer of the bank. Witness knew his signature.

Mr. P. Crough was called. He is proprietor of the Victoria hotel, and endorsed a note for Franklin. For security Franklin gave him a ring he wore on his finger, which witness gave to the bank for safekeeping. At the time of the renewal of the note, Franklin came to witness and asked him to change the ring as he wished to make a trade, and he gave a smaller one in return.

Mrs. Franklin next went into the box. She stated that the earrings she sold Mr. Taylor, had been purchased by her last year in Oregon from a jeweller, and she had given in payment a pair of diamond earrings, a diamond brooch, and \$100. The jeweler told her the cost of the jewels she bought were \$500. She was married to Franklin two or three months afterwards. The earrings had never been tested up till the time Nankin tested them. She had sent the diamond which Nankin pronounced worthless, back to her aunt in Portland.

Cross-examined by the Crown witness said she was married to defendant in 1934, in Oregon. She had met defendant in Oregon. He was a widower when she married him. He had carried on a land business before marrying her.

This was all the evidence taken in the case and His Lordship reserved judgment.
